MEDISORB®

MEDICAL SODA LIME CO_2 ABSORBENT

LATEX FREE | DISPOSABLE | DEHP FREE

Medisorb® is a CO_2 absorbent designed for use with anesthesia systems in hospitals or surgery centers. It effectively removes CO_2 from breathing gases during anesthesia procedures.

M1173310
Compatible with
GE Aespire™, GE Avance™,
and GE Aisys™ anesthesia systems

Medisorb EF medical
soda lime CO_2 absorbent

427000100
Compatible with GE
Aestiva anesthesia systems

2079796-001
Compatible with GE Carestation™ 600 series

FEATURES

- Low-alkaline formulation available. It's specifically formulated to help reduce concern over anesthetic agent degradation.
- Color change indicates absorption progress.
- D-profile granule shape prevents clumping for better gas flow distribution.
- Compatible with GE Healthcare anesthesia machines.
- Safe to use with desflurane.
- Controlled moisture content prevents desiccation.
- Conforms with APSF recommendations for anesthetic agent degradation.
