PRODUCT EVALUATION

# MULTI-LINK™ SINGLE-PATIENT-USE LEADWIRE SETS

NAME _____ DATE _____

FACILITY / HOSPITAL _____

TITLE _____

DEPARTMENT _____

| CHECK ONE FOR EACH STATEMENT | AGREE | DISAGREE |
|---|---|---|
| The leadwires were easy to set up and use | ☐ | ☐ |
| The leadwires connected securely to electrodes, helping prevent accidental disconnection | ☐ | ☐ |
| The leadwires provided a similar level of ECG signal quality as our current solution | ☐ | ☐ |
| The leadwires' light green coloring enabled easy identification of disposable units within the care setting | ☐ | ☐ |
| The Multi-Link single-patient-use leadwire sets are clinically acceptable | ☐ | ☐ |
| I recommend that the hospital convert to Multi-Link X2 single-patient-use leadwire sets | ☐ | ☐ |
