Nasal Sampling with O<sub>2</sub> Delivery

Sampling Line

Nasal Sampling Only without O<sub>2</sub> Delivery

### EXTENDED USE

Nasal Sampling Only without O<sub>2</sub> Delivery

Oral/Nasal Sampling with O<sub>2</sub> Delivery

## LEVEL OF AGREEMENT (CIRCLE ONE FOR EACH STATEMENT)

	1 STRONGLY DISAGREE	2 DISAGREE	3 NEUTRAL	4 AGREE	5 STRONGLY AGREE
The connector promptly engaged with my capnography monitor.	1	2	3	4	5
The in-line filter was an effective moisture barrier.	1	2	3	4	5
The oxygen connector was easy to push on and use.	1	2	3	4	5
The SalterSTAT Reflective EtCO <sub>2</sub> Cannula provided consistent readings on the monitor.	1	2	3	4	5
The IFU is clear and easy to understand.	1	2	3	4	5
The package labeling is clear on the size selection.	1	2	3	4	5
The variety of tubing length meets our needs.	1	2	3	4	5
The airway adaptor was effective for CO <sub>2</sub> monitoring in intubated pediatric or adult patients (leave blank if not used)	1	2	3	4	5
I would recommend the use of SalterSTAT Reflective in my facility.	1	2	3	4	5
