NAME + TITLE _____

DEPARTMENT _____

Please provide your feedback on the Ballard™ Turbo-Cleaning Closed Suction System.
Put an "X" in the box that best describes your answer and include any additional comments that you may have in the space on the right.

EVALUATION CRITERIA	AGREE	DISAGREE	N/A	COMMENTS
I was able to effectively perform closed suction using the Ballard Turbo-Cleaning Closed Suction System.				
The Ballard Turbo-Cleaning Closed Suction System was easy to use.				
I did not notice significant loss of PEEP during the suctioning procedure.				
I saw consistent performance and cleaning action in the isolated cleaning chamber.				
<i>If using a saline bullet/vial</i> – I was able to perform catheter cleaning using only one hand on the thumb valve.				
I recommend that my hospital use the Ballard Turbo-Cleaning Closed Suction System.
