# IGUARD™ EYE PROTECTOR

LATEX FREE | STERILE | SINGLE USE | CE MARK

The IGuard™ provides comfortable, effective patient eye protection while in the ER, surgery and during general procedures. Available in single or double thickness foam, the IGuard stays in place with non-allergenic adhesive.

Non-allergenic self-adhesive foam for easy application and removal

IGUARD™ EYE PROTECTOR

- Helps protect patient's eyes against eye abrasion, lacerations, and scleral hemorrhage during general anesthesia

- Rigid, clear protective patient eye cover for use in OR, ER, and during general procedures

- Non-allergenic self-adhesive foam cushion for fast and accurate application

- Thick foam for patient comfort even in prone position

- Improved one piece backing with "courtesy tabs"
