

SUNMED®

ENDOTRACHEAL TUBES

SunMed® Endotracheal Tubes

SunMed® endotracheal tubes are designed for either oral or nasal use with a smooth Murphy Eye as an alternative ventilation port. Made of latex free, flexible PVC, that are available cuffed, uncuffed, with or without stylet. Cuffed tubes feature a high volume, low pressure barrel cuff. A radiopaque strip is embedded to assess exact location of tube. All have a standard 15 mm ISO connector. These airways are individually packaged.
