

OUR CAPABILITIES

AirLife® is the leading consumable breathing products company in the world with a focus on respiratory, anesthesia, and patient monitoring products. As the recipient of the 2024 Captis Commodity and Clinical Preference Supplier of the Year, AirLife provides exceptional service, an optimized distribution network, and comprehensive programs that deliver premium quality with significant cost savings.

BUILT BY BRANDS YOU KNOW AND TRUST.

SUPPLY CHAIN ASSURANCE

AirLife Secure™ Program

- **North American Manufacturing:** We've onshored the majority of our production to North America to improve reliability and responsiveness.
- **Built-In Redundancy:** Multiple manufacturing sites, dual sourcing strategies, and diversified suppliers reduce risk and prevent disruption.
- **Rigorous Standards:** Enhanced audit protocols and supplier management systems ensure consistency and quality across every product.
- **Strategic Inventory Expansion:** Increased inventory levels across essential product categories to support continuity of care.

WORLD-CLASS CUSTOMER CARE

Customer Service Concierge

Experience our custom concierge service, delivering unparalleled customer service to meet all your needs. Our dedicated concierge and clinical team are here to assist with questions, onboarding, and placing orders, providing personalized support to ensure a smooth and satisfying experience.

TRUSTED BRANDS

Easier Product Conversions

Over the past five years, AirLife has unified some of the most trusted names in respiratory and anesthesia—Ballard™, Vital Signs®, Salter Labs®, and SunMed®—into one cohesive portfolio built to better serve clinicians and patients.

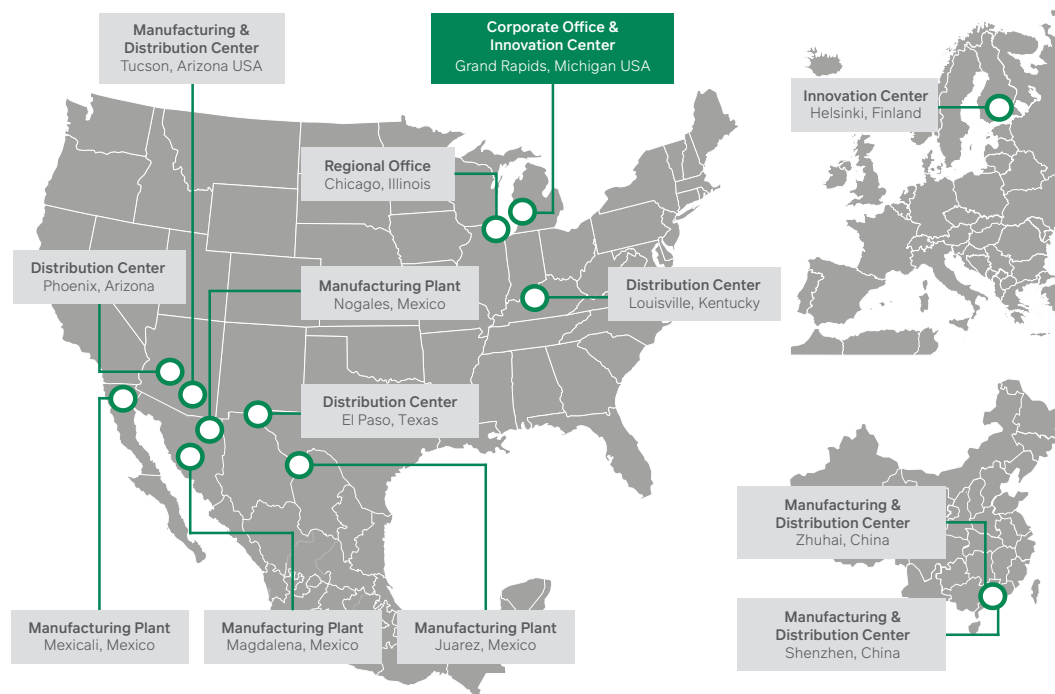

FOCUSED ON SIMPLIFICATION

One Source for Respiratory & Anesthesia Products
